Part 3 with Improvements to Part 2 Process Document

Website Choice

Name: GM Computer LAB

Description: The aim of this computer lab business is to help school kids to learn about the computers before completing matric because kids struggle to use computers and some, they can't afford them which will be difficult for them to learn.

Reasons

GM computer lab provide students with access to technology and digital tools, fostering digital literacy skills that are increasingly vital in today's technology-driven world. GM Computer lab is equipped with computers, software, and internet-connectivity, enabling students to explore a wide range of educational resources, conduct research and develop critical digital skills.

GM computer lab promotes a structured and controlled learning environment. Teachers can closely monitor students' activities, ensuring they stay on task and use the technology for educational purposes.

GM computer lab offers a standardized and equitable learning experience for all students. Regardless of their socioeconomic background, students have equal access to technology and online resources within the lab, reducing disparities in educational opportunities. This helps bridge the digital divide and promotes work together on projects, share ideas, and collaborate on digital assignments, fostering teamwork and communication skills. These collaborative experiences inclusivity in education. computer labs facilitate collaborative learning. Students can prepare students for the collaborative work environments they will encounter in the future.

GM computer lab also plays a crucial role in preparing students for the demands of the job market. They can learn software skills, programming, and digital literacy, which are highly sought-after in today's workforce. Thus, computer labs serve as a steppingstone for students to develop the technical skills needed for success in a digital age.

Conclusion

GM computer lab is an essential resource in schools due to their role in promoting, digital literacy, offering a controlled learning environment, reducing educational disparities, fostering collaboration, and preparing students for future career opportunities.

Information from website

Computer lab is a non-profit organisation founded in 2012 to provide computers donated by corporations to poor schools around South Africa.

Thousands of schools continue to lack computer labs for their students.

Businesses wish to donate their old computers to a worthy cause.

We assist with all logistical and technological issues associated with creating long-term computer learning environments.

Computer lab is supported by the generous time and resources of individuals and businesses that are dedicated about aiding learners to have access to technology (Lab, 2020).

Part 3 with Improvements to Part 2 website

On line 2 html homepage I changed <html> tag to <html lang="en"> </html>

On line 4,5,6,7 html homepage I added <meta name="" content="">

```
<meta name="" content="">
```

```
<meta name="" content="">
```

```
<meta name="" content="width=device-width, initial-scale=1.0">
```

Line 34 on html homepage I added <form action=""></form> open and close tags that will allow me to insert URL link which it will take us to Receive Newsletter Google Form.

Line 44 to 57 I added this tags.

```
<script>
```

```
function check()
```

```
{
```

```
if (document.getElementById("userEmail").value <= 19)
```

```
{
```

```
document.getElementById("pp").innerHTML="Hello" +  
document.getElementById("userEmail").value+" ,"
```

```
}
```

```
else
```

```
{
```

```
document.getElementById("pp").innerHTML="Hello" +  
document.getElementById("userEmail").value+" ,"
```

```
}
```

} that will allow my website script to function when trying to press a button it will take to the next page that have a newsletter google form.

Line 58 on html homepage I added <script src=""></script> open and close tags where I inserted my JavaScript link.

Line 35 I added

 makes the section break.

On contact Html page I added <label>Name:

```
</label>
```

```
<input type="text" id="userName">
<br>
<label>Email: </label>
<input type="text" id="userEmail">
<br>
<label>Phone Number: </label>
<input type="text" id="userPhoneNumber">
<br>
<label>Message: </label>
<textarea id="Message" name="Message" rows="4" cols="50">Enter your
Message</textarea>
<button type="submit" onclick="check()">Submit</button>
<p id="pp">Results</p>
```
